

L A K E R M U S I C

I Live in Fear

Over on the corner
They're leaning on the kid
He's gonna get a beating
For something that he did
Drag him down the alley
Where a boy becomes a man
When you're on the frontline
You do the best you can

My days are long
And my nights are longer
My days are long
And my nights are longer

I don't watch the news
Or read a paper anymore
Too many men and women
Going off to fight the war
One time two times three times more
When everyone's forgotten
What it is we're fighting for

My days are long
And my nights are longer
My days are long
And my nights are longer

Empty houses on the street
Where people used to live
Bankers holding paper
On a loan they won't forgive
People sleep in boxes
Underneath the city bridge
Kandahar, Saginaw
Anywhere you live
