

L A K E R M U S I C

**Wonder**

Well, I hold this love  
Like the smallest bird  
And I hear each sigh  
Each tender word  
Any hour spent  
In a day with you  
Is a moment's mercy  
For a heart so blue

Tell me why baby, why baby why  
You make me cry baby, cry baby cry  
I tell you no lie baby, lie baby lie  
I'm gonna cry baby, cry baby cry

When there's only you in my world  
When there's only you in my world

And we'll only talk  
'Cause that's how things are  
You're as far from me  
As the farthest star  
Oh and how I wonder  
Wonder who you are?

When there's only you in my world  
When there's only you in my world  
One boy and just one girl  
When there's only you in my world

And a heart will break  
And a heart will mend  
When I see your face  
When we meet again  
And that heart will hope  
With all its might  
For the briefest kiss  
At the edge of night
